

Assessing discrimination in healthcare, quality of life and PD symptom burden

[BLOCK 1: Discrimination in Medicine Scale **Qx 2-7**]

Sometimes people have bad experiences with the healthcare system based on factors out of their control such as age, gender, race, sexual orientation, and other things. Through this Fox Insight survey, we hope to learn more about your healthcare experiences as a person with Parkinson's disease. Your answers can help researchers gain insight into whether Parkinson's patients face challenges or discrimination in health care, so that we can develop ways to improve this in the future.

Please share your health care experiences and tell us more about yourself. Note that all information you share is confidential.

Multiple choice, single answer, required

1. Do you currently have a diagnosis of Parkinson's disease, or parkinsonism, by a physician or other health care professional?
 - a. Yes
 - b. No

Skip Logic: If (b) selected, skip to end of survey 1

Please think about all the times in your life when you've gotten health care related to your PD diagnosis. When getting health care, how often have any of the following things happened to you?

Multiple choice, single answer, required

2. You are treated with less courtesy than other people.
 - a. Never
 - b. Rarely
 - c. Sometimes
 - d. Most of the time
 - e. Always

Multiple choice, single answer, required
